

Structural Solutions Private Limited

June 2013

Plug-Play Wireless Energy & Power Monitoring - Watt-Link™

LORD MicroStrain Sensing Systems who is recognized as a leader in the sensor industry is a value stream of LORD Corporation. LORD MicroStrain's range of sensing solutions includes inertial sensors, micro-displacement sensors, wireless sensor networks and energy harvesting electronics.

Structural Solutions Private Limited (SSPL) exclusively represents LORD MicroStrain in India. SSPL is an ISO 9001 certified professional engineering company engages in offering high end technology-intensive products and system solutions to Indian Industry.

Energy Monitoring on a cloud-Enabled Wireless Sensor Platform

- Streamlines discrete industrial power installations
- Synchronized with other power influencing inputs
- Synchronizes with wireless condition monitoring
- Supports current transformers with custom gains and offsets
- Remote monitoring, real-time alerts via email and SMS
- MathEngine® analytics for consumption trends and tracking metrics

Applications:

- Energy Management
- Building HVAC
- Curing Furnace
- Roller conveyor Motor
- Building automation
- Demand metering
- Individual phase measurements
- Equipment performance monitoring
- Verification, evaluation and diagnostics

Plug-and-play wireless power & energy monitoring on a scalable, cloud-enabled platform

Watt-Link®
